Dear all,
Here's the ppt slide for tomorrow. Thank you for your help!
Best,
Zemin

I agree that we should meet before lunch. Maybe we can meet in the building 10 cafeteria, even though I don't know that is anymore, as compared to when I used to be there. I don't plan to come to EPA tomorrow, so I am available all morning.

Subject: RE: January 10th

Dear all,
When and where should we meet? Where do visitors park usually?
It would be nice if we can meet an hour before lunch so that we may be able to go over the slides once. If not it's okay.
Best,
Zemin

They said that they would meet us in the atrium because it is hard to find the room. We should meet earlier though, on the NIH campus.

Thanks for the correction, Zemin. That's not how room numbers in the older part of Building 10 are usually listed, so I suspect that it's in the new part of Building 10. We may need someone to let us into the right corridor because unlike the old building's corridors, those in the new part of the building are access-controlled. I guess that's why they want to meet us in the main atrium at 1:15.

FYI.

Looks like the meeting is set up for tomorrow (10th) 1:30 – 3:00 pm, in building room 10 3-2550.

Best,
Zemin
